

MoNA

Museum of Northwest Art

Lisa Clarke grew up in Arlington, Washington and has spent most of her career in the greater Seattle area. Lisa is a new addition to our Board as of February 2024.

In her work, Lisa's passion is working with middle market family-owned or founder-led businesses on growth and transformation initiatives, where she leverages her 30 years of experience leading organizations in the manufacturing, technology, and services industries. Her superpower is attracting great talent and cultivating loyalty.

Lisa grew up around great art and has been collecting pieces since the mid 1990's. In her words, "My grandmother immigrated to Stanwood from Norway and became an artist. In addition to some of her work, my parents gifted to me some amazing Asian and South American pieces that I remember from my childhood. I'm excited for the future of MoNA!"
